

Dear Liz,

Periodically, I check your website to see how things are going and getting my fill of the new puppies :)

Coco is such a GEM!!

We love him soooo much! I truly can not imagine life without "my shadow". He is the perfect baby... I mean dog ;)

He is almost 2.5 years old and so smart. I think he knows at least 20-30 words, probably even more (but secretly keeps those to himself).

I can see why French royalty loved Bichon Frises. Coco is handsome, soft as silk, polite, kind, and a true best friend. He is ranges from 10- 11 pounds and is very quiet and a lover. Anyone who meets him falls in love. He is healthy and the only issue is he prefers human food (who wouldn't) as the grandparents melt when he shows them his big brown eyes.

Thank you so much for breeding such an amazing pedigree. Your responsibility as a breeder and your loving home is a testament to the puppies that are born. They are perfect!

coco's "mom", GG
